

جمعية رؤية شبابية
YOUTH VISION SOC.

2025 Annual Report

About us

YVS is a civil non-profit association, established in 2009. It works in the field of capacity building, culture, arts, human rights, social improvement and civic participation. Youth, community leaders, women and representative of syndicated and unions have been targeted for different programs. Creative cultural, human right and community participation were professionally implemented. YVS adopts participatory methodology to implement most of its programs in the belief that, participation is the corn stone of the sustainability of the action. YVS conducts regular public consultation and participation meetings trying to set priorities in order to respond precisely to the needs of the community

YOUTH VISION SOC.

Vision and Mission

Vision Statement

To build a just and inclusive community where all individuals enjoy equal rights, equal security, and equal opportunities.

Mission Statement

YVS is committed to promoting equal rights for Palestinians by empowering youth and women, protecting children, advancing education, and leading impactful advocacy efforts.

Executive Summary

In 2025, Youth Vision Society continued to operate across the Gaza Strip in an exceptionally complex humanitarian context marked by prolonged conflict, mass displacement, and severe disruption of essential services. Civilians—particularly children, women, and vulnerable groups—faced escalating protection risks, loss of livelihoods, and limited access to education, health, and food.

Within this environment, Youth Vision Society delivered integrated, needs-driven interventions aimed at saving lives, preserving dignity, and strengthening community resilience. During the reporting year, the organization reached more than 100,000 beneficiaries across highly affected and displaced-dense areas of Gaza.

Youth Vision Society's 2025 programming focused on Education, Mental Health and Psychosocial Support (MHPSS), Health and Sexual and Reproductive Health (SRH), Food Security, Emergency Kitchens, Livelihoods support, and Community Resilience. Interventions were designed using protection-sensitive and community-based approaches to ensure equitable access, accountability, and alignment with humanitarian standards.

Executive Summary

Despite significant access, security, and operational constraints, Youth Vision Society maintained continuity of services and adapted delivery modalities to respond to evolving needs. The organization strengthened coordination and partnerships to maximize reach and effectiveness while ensuring quality and relevance of assistance.

In 2025, Youth Vision Society worked in partnership with OCHA, Heinrich Böll Foundation, WFP, Oxfam, Mecca, and PGS, contributing to coordinated humanitarian responses across multiple sectors and geographic areas.

Looking ahead, Youth Vision Society remains committed to scaling integrated humanitarian interventions, strengthening community resilience, and maintaining readiness to respond to emerging needs in Gaza in 2026, in close collaboration with donors and partners.

Our Projects

In 2025

Gaza Emergency Relief

Funded by MECA & Qatar Foundation

Various humanitarian aid packages were distributed, including food parcels, hygiene kits, shelter kits, bags of flour, and diapers for children, that came in aid to people and to overcome hardships

Our Projects

In 2025

School Feeding Program in Northern Gaza

Funded by World Food Program

Fortified biscuits are distributed to thousands of children in TLSs to combat hunger and improve students performance in school. The project aims to nourish young minds in conflict-affected areas.

Our Projects

In 2025

In-Kind Food Assistance

Funded by World Food Program

This project delivers 4000 food parcels monthly to vulnerable households in Gaza City, ensuring food access and contributing to immediate hunger relief and nutritional support amid the blockade.

Our Projects

In 2025

Remedial Education and Psychosocial Support for Children in Deir Al-Balah

Funded by MECA Foundation

A humanitarian education project that aims to support 280 children by providing safe learning opportunities and psychosocial support

Our Projects

In 2025

Sowing the Seeds of Hope project

Funded by MECA Foundation

Supporting families in North Gaza, this project promotes food self-sufficiency through rooftop gardens. It provides tools, seeds, and knowledge to help communities grow their own food amidst scarcity.

Our Projects

In 2025

Hot Meals Project

Funded by World Food Program

Through community kitchens in Sheikh Radwan, Beach Camp, Al Nasser, and Southern Rimal, this project provides 25,000 nutritious hot meals daily. It alleviates hunger, enhances food security, and supports inclusive community engagement during times of extreme hardship.

Our Projects

In 2025

Remedial education and psychosocial support for primary school students

Funded by OCHA Foundation

Providing educational and psychosocial services for vulnerable children in Gaza, the temporary learning spaces are equipped with classrooms and PSS rooms

Our Projects

In 2025

Rebuilding Hope: Enhancing Educational Opportunities, Psychosocial Wellbeing, and Safe Spaces for Children in Beach Refugee Camp

Funded by PGS

This education-focused project aims to improve the psychosocial wellbeing, learning outcomes, resilience, and future life opportunities of vulnerable children living in Beach Refugee Camp.

Our Projects

In 2025

Multi-Sectoral Emergency Response Project

Funded by Oxfam Foundation

Improving access to sexual and reproductive health (SRH) services and strengthening the prevention of gender-based violence (GBV) in the emergency context of Gaza Strip. The project targets women, men, and youth from displaced families in Deir al-Balah and Mawasi Khan Younis.

Our Projects

In 2025

Promoting Youth Resilience and Inspiring Change

Funded by Heinrich Böll

The project aims to empower youth in Gaza Strip by enhancing their psychological and social well-being, resilience, and capacity building, and by promoting their community participation. Project activities include conducting psychosocial support sessions led by specialized psychology trainers and providing training for youth on writing and implementing initiatives

- **Severe Restrictions on Humanitarian Access**

The prolonged siege, closure of border crossings, and arbitrary restrictions on essential supplies (food, fuel, medical and hygiene items) severely limited the scale, timeliness, and continuity of humanitarian assistance.

- **Insecurity and Ongoing Hostilities**

Continued airstrikes, ground operations, unexploded ordnance, and attacks in densely populated and so-called “humanitarian zones” posed constant risks to civilians, staff, facilities, and aid operations.

- **Mass Displacement and Movement Constraints**

Repeated evacuation orders and internal movement restrictions resulted in large-scale displacement, frequent relocation of beneficiaries and staff, and limited access to affected populations, particularly in northern Gaza.

Challenges and Difficulties

- **Collapse of Public Services and Infrastructure**

Widespread destruction of water, sanitation, health, and communication infrastructure undermined service delivery and increased public health risks, including disease outbreaks and poor hygiene conditions.

- **Ensuring Humanitarian Access and Safe Delivery**

Humanitarian assistance must be allowed to enter Gaza at scale and move freely across all areas to meet life-saving needs, in line with international humanitarian law.

- **Protection of Civilians and Humanitarian Workers**

All parties must respect international humanitarian law, including the protection of civilians, humanitarian personnel, and facilities, and ensure a safe operating environment for aid delivery.

- **Restoration of Minimum Conditions for Civilian Survival**

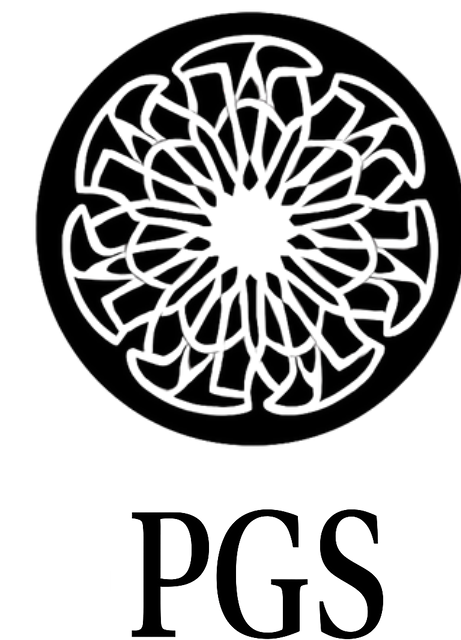

Protection of essential infrastructure, including water, sanitation, health, and communications systems, is critical to prevent further deterioration of living conditions and public health.

Solutions to the Challenges

- **Safeguarding Humanitarian Space**

The international community must act to prevent the continued shrinking of humanitarian space and support the sustained presence of humanitarian actors operating under extreme risk.
